

## GHANA CHRISTIAN MISSION – APRIL 2019 DONOR UPDATE

### JOHN NEWMAN

#### **Thanksgiving**

1. Glory and honor be to our creator for always protecting my family from the works of the wicked one
2. We also thank him for providing for our daily needs such as food, water, good health etc.
3. Some time ago I reported of sister Maame Beauty who was pregnant and needed our prayers for safe delivery. God has been gracious to us. On Wednesday 13<sup>th</sup> February at dawn, she was sent to the hospital for delivery. Another woman also in labor was taken first to the delivery room but unfortunately, died. You can imagine how she felt to know she is going to the delivery room next. She was also sent and it was difficult for her to deliver so she was sent to the theatre for surgery. By Gods intervention the surgery was successful. She had a baby boy and they are doing well. This was the woman we prayed for at the leaders retreat at Tamale. To God be the glory.
4. Thank god we had a successful women convention at Nkwanta from 27<sup>th</sup> February to 2<sup>nd</sup> March. The attendance was very poor, but it was one of the conventions we can speak of how God can demonstrate his power in the midst of a few people.

#### **Prayer Requests**

1. Let us prayer for the members to be rooted in the word of God so that they can stand against the enticement of false prophets the devil has sent to lead them from the word of God to miracles.

2. Pray for members to be blessed financially in order to give generously to promote the work of God.
3. Pray for a pick-up truck for Nkwanta which can also serve in the other areas of Nkwanta municipality.

### **Pastor Sam Dzobo continues to baptize people into Christ**

62 people (39 Females 23 males) were baptised the same day to start a new church in Mpele. Amazingly, the baptism was done in a crocodile pond as it was the only place where water was close (about two miles away from Mpele)

The work by Joshua for the Chakali people continues to go forward. Stucco is going on outside and plastering is happening on the inside walls. The electricity has been extended out to the house and they are waiting on a fuse for the transformer in order to turn it on. We praise God that Joshua has made some friends and several of them are helping him with the work.

Please continue to pray for all the evangelists and pastors serving in their various places. Ask the Lord to provide for all their needs and keep them safe physically and spiritually.
